

- Compact structure
- Easy operation
- General parts
- Light weight samll size

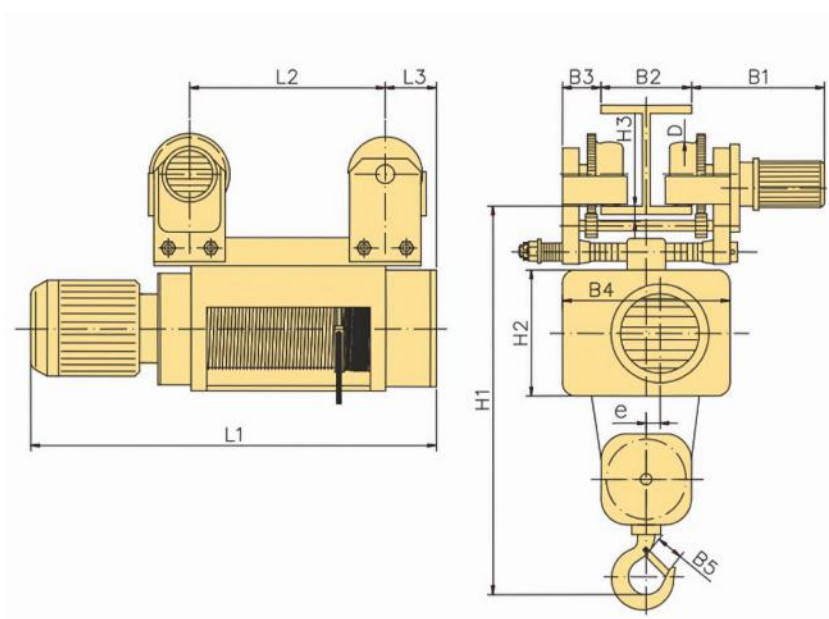

- Pure copper motor
- Double flanged drum

Technology

- High gear reducer
- Thickening rope guiding device

PRODUCT PARAMETERS

PRODUCT DETAILS

1

High Quality Wire Rope

Tensile strength up to 2160Pa
antiseptic surface phosphating
treatment.

Limit Switch

Limit switch has high precision, wide adjustment range, safety and reliability.

2

3

Drum

Thickened inner tube, detachable outer tube
FEM compliance

Hook

T-grade high strength forging, DIN forging.

4

5

Electric Cabinet

36V low pressure control, The operational safety.

Electrical Control Box

Long life and reliable use of electrical components.

6
