

PRODUCT PARAMETERS

- ① Top ② Claw ③ Spring ④ Handle
- ⑤ Oil injection port ⑥ Nameplate
- ⑦ Joystick ⑧ Sealing point
- ⑨ Joystick ⑩ Joystick

★ Confirm the above basic jack parameters before purchase

PRODUCT DETAILS

OIL FILLING HOLE

Enlarge the oil filling hole
More stable and convenient oil injection

PRESSURE RELIEF VALVE

Tighten clockwise
Lower slightly anticlockwise

PORTABLE HANDLE

Ergonomic design
Easy to carry

Reject oil leakage **Double-layer sealed oil cylinder**

Strict selection sealing ring, double-layer oil-proof, oil leakage-proof, not easy to wear

Safe and non-fracture **Original cutting integral claw**

The hook claw is made of steel plate cutting at one time, which is safe and reliable as a whole and not easy to break.

Hydraulic valve core **Durable small oil pump**

Flexible rotation, 360° rotation, easy to deal with a variety of scenarios

Strong bearing capacity **Claw as low as 2cm**

Solve the lifting problem of low starting point equipment
